

## KK 1100/660 LITRE BIN PRESS

The KK 1100/660 Bin Press can be adapted for use with 1100 and a variety of other metal and plastic wheeled carts. The 3.5 ton compaction force reduces all types of waste by a ratio of 5:1 without exerting any pressure onto the castors. The unit is simple to use and can be operated both inside and out.

### Features

- Reduces frequency of daily/weekly waste bin collections
- A compaction ratio of 5:1 (depending on material used)
- Base lifting plate ensures bin wheels are not damaged during compaction
- Two hand operation makes for a safer working environment

### Optional Extras

Adaptor available to compact 660 Lt bin
