

KK40 Mill Size Baler

A modern machine designed to be user friendly with minimum maintenance. This machine produces a mill size bale (weight 450 kg) and is ideal for a large amount of recyclable material. Features include retaining claws to reduce spring back, large loading aperture for easy loading of cardboard boxes into the baler and fully automated bale ejector to simplify the removal of bale.

OPTIONAL EXTRA

- Available with 220 - 240 volts power supply.
- Unique patented prong shaper design eliminates the need for pallets when lifting, stacking and transporting bales.
