

## KK 66 PET TWIN BALER

The KK 66 PET Twin Baler can be purchased or hired and is specifically designed to compact and pierce PET bottles with and without liquid.

### Features

- Unique piercing mechanism eliminates the need for removal of bottle caps before baling
- High compaction ratio
- Suitable where there is a medium to large amount of plastic drinks bottles for disposal
- Roller guided head provides easy movement
- Top loading baler for faster loading of PET bottles
- Saves time by loading free chamber while machine is in operation
- Suitable where height is restricted
- Bale Lifting Trolley included
- 30 Litre retention tank with tap connection for collection of residual liquid left in bottles
